

## GB-306W

Detect breaking of all glass types: simple glass, tempered glass, art glass, armoured glass, compound glass, glass coated with polymer film, hollow glass blocks, glass packets.

### Specifications

	GB-306W
Operating Frequency	433.92MHz ± 75KHz
Transmission Distance	100 m ( Open )
Detection range	6 m
Size of monitored glass	not less than 0.3 X 0.3 m
Tamper Switch	yes
IP rating	IP 30
Input Voltage	3V
Current	≤ 30 mA
Battery Life	2 year ( CR123,1500mAH )
Operating temperature	- 2 0°C ~ +45°C
Dimensions	99 x 69 x 38,5 mm
Weight	104 g ( With batteries )

### Features

- Wireless transmission distance of 100 meters ( open )
- Multilevel microprocessor controlled signal analysis.
- Compatibility with various types and sizes of glass.
- Immunity to acoustic noise, static discharges, noise in power supply lines, electromagnetic interference.

### Installation

Top mount

Wall mount

Installed on the window frame
